Proposed Policy forwarded to SC.
(3)	Involvement: Set goals and tracking of level of community involvement and volunteering.		[unable to dedicate any time to this. nsb]
(4)	Superintendent: Set tangible measures of our Superintendent's performance, on: budget, academic achievement, leadership and more.	4/12/10. Significant improvements	7/1/09: To a limited extent, such measures existed prior to my tenure on the SC. Although my contribution is by no means negligible, it would be presumptuous to claim that I was the primary reason for such improvement. I would offer that it was, primarily, a maturing process, to which I contributed in a significant way. 4/12/10: Additional progress. Still work to do.
(5)	Teachers: Cooperatively identify criteria and measures of educational success.	4/12/10 Progress. Lots more work to do.	4/12/10. More tiny steps. 7/1/2009. Some signs of progress. Current progress is primarily a result of a state initiative.
