Office of the Superintendent of Schools**

**REPORT ON USAGE FEES FOR SCHOOL BUILDINGS
July 2007**

Introductory Statement:

As part of opening our new high school facility, the Swampscott Public Schools is considering the development of new policies and procedures to support the increased demand for the use of our new facility. As a result of the increased demand, the Swampscott Public Schools seeks to create a system-wide policy / procedure for the usage of all of our facilities in order to maintain a comprehensive set of policies and procedures.

Background:

The intent of this report is to provide the Swampscott School Committee the ability to review and update its policies and procedures for the rental of its facilities to include an update of rental fees. The Swampscott School Committee last reviewed the policies and procedures for facility use in 1997 and updated the rates for said facility usage in 2004.

Facilities Implications:

The suggested changes outlined in this report will affect all facilities owned and operated by the Swampscott Public Schools in conjunction with the Town of Swampscott.

Budget Implications:

Budget implications for this report will affect the maintenance line item of the SPS budget. Revenue generated from the rental of school facilities will be deposited into the "hall rental account" and will follow effective accounting practices in-line with those administered under Massachusetts General Law and the Town Charter.

Public Support and Engagement Implications:

This report was developed by a committee of representatives from the Swampscott Public Schools and other town agencies which included a review of the policies and procedures of other like school communities. Community engagement for this report will be conducted in the forum of Swampscott School Committee meetings as an agenda item under new business.
